He reviewed my grammar, overall writing flow, and helped me brainstorm more details	He was patient and asked me helpful questions to brainstorm ideas	Thank you!
Adam helped me find the areas that I was unclear and redundant, which is hard to do alone.	I appreciated how complimentary he was, while still giving significant and impactful notes.	
Adam read the essay out loud and had me discuss the point I wanted to get across in each paragraph and focused on the transitions between ideas (a piece of writing I struggle with). Hearing the essay out loud brought to light the flow of the article and how I could improve it and allowed for a collaborative environment.	I appreciated his openness and kindness in working with me. It can be stressful to write your first college essay and he constantly assured me that there were good points I made while giving crucial feedback at the same time. I feel more prepared for future writing and more confident in the next draft of this essay.	Thank you! I feel much better about my essay now!

The tutor (Adam) constructively highlighted parts of my writing that were effective or could use improvement. He made suggestions that were easy to understand and helped me feel confident in some of the choices I made.	I appreciated his acknowledgment of his lack of complete awareness/understanding of my topic. It didn't interfere with him making sound observations and assertions about my writing and my claims.	
My tutor helped me go through the entire paper and look at some flaws & strength of my paper.	I really liked how my tutor was very patient with me.	Thank you so much! =)

Adam helped me understand how I should look through my paragraphs to see if the way that I formatted the topics made sense. He also helped me see redundancy that I can eliminate.	I appreciated the feedback that Adam gave me step by step through my paper and the fact that he waited for ~10 minutes for me to join as I faced technical difficulties.	None. Adam is great!
Yes, he gave me useful and reassuring advice to help me overcome the obstacles that prevent me from being productive.	I appreciated how he kept us focused on our goals for the session. I tend to lose track of what I'm working on and can lose focus of the overall goal of my writing.	Thank you for being patient as I find what helps me be more effective at writing and editing my work.
He helped me to better understand how to approach the text in conversation assignment and how to bring the different perspectives together to set the stage for the research-based argument.	He guided me step-by-step on breaking down the different voices, and understand how to shape the central question that truly voices the opinions of the stakeholders of the conversation.	Thank you so much for all your help! I now have a much better sense of what steps I have to take next and am much more engaged with the assignment!

Adam was kind enough to read my writing to me and help me identify places that I could work on. He was considerate of both my perspective as the writer and the perspective of a reader. With these different perspectives, he did a great job explaining how I could make my writing clear and concise.	Adam was patient and very enthusiastic to help. He would ask for my opinion before telling me his own, and he really helped me look at my own writing with fresh eyes.	Adam was just really supportive throughout the whole session!
He asked very insightful questions and listened thoroughly. Even though he wasn't familiar with the books I referenced, he really tried to help me connect the two and reflect my own thinking back to me so I could verbalize it better.	Everything I said above, and also that he still was able to work with me even though I came in with very little preparation.

We worked on making sure my science and writing was clear, and that the main message was getting across to the reader without sacrificing the integrity of work.	I most appreciated hearing Adam interpret my science which reassured to me that my writing was clear. Where he didn't understand what was going on indicated to me that I wasn't clear in my writing. Hearing my writing out loud was also very helpful.	Adam made the session really comfortable and low stress which helped me get through the material and feel comfortable asking questions!
Adam was really amazing. He walked me through each word of my essay and gave really insightful feedback. He answered all of my questions and was able to tell me what I need to improve and what I should keep doing.	Adam was really patient and a great analyst. When I come back to more tutoring sessions, I am definitely going to try and get an appointment with Adam. I really appreciate that he gave such a thoughtful analysis of my piece.	Can't thank you enough for the time/feedback. It was all super helpful.
Adam helps me restructure the paragraphs to make them more concise.		
Adam was super helpful and great to work with. He brought in a lot of thoughts on the big picture/main idea aspects of my essay.	Adam pointed out ways to strengthen my arguments, as well as why I wrote what I did.	Thanks Adam!

Adam greatly helped me with my thesis literature review outline.	He was understanding and willing to attempt to learn about my research topic which he did not know about prior to this.	Thanks so much for the help!
We read through my paper together. Adam asked me to explain the main point of each of my paragraphs, which was helpful. He pointed out sections that were confusing and a few organizational issues. Adam also prompted me with questions to help me build on my conclusion.	Adam thoughtfully pointed out specific areas of my paper that need attention. He was extremely friendly and brought warmth and a sense of humor to the session.	
He helped fixing a lot of grammar mistakes, and also helped me went through the main ideas of each paragraph. This is really great!	His patience is great, and he really shows subtlety when commenting and making slight changes in my google doc.	
My tutor helped me by reading each paragraph out loud, and then discussing together the meaning of my writing and how to make the wording more clear. This method was helpful as it helped me realize that I worded certain sentences strangely before which made it difficult to understand when read by others. My tutor also helped me realize that certain arguments I included may not be convincing in the context I was arguing for which I appreciate as I can now change that and write a stronger argument for the context I am writing about.	My tutor was very kind and was willing to help me in all aspects of my writing. I appreciate his help.
